

POWER OF 2 CALCULATION

```
#include<stdio.h>
#include<math.h>
void power(int n);
int n;
void main()
{
    printf("Enter The Power Of 2-->>\n");
    scanf("%d",&n);
    power(n);
}

void power(int n)
{
    int ans;
    ans=pow(2,n);
    printf("Answer Is-->>%d",ans);
}
```
