

LEAP YEAR

```
#include<stdio.h>
void leap(int n);
int n;
void main()
{
    printf("Enter The Year To Check\n");
    scanf("%d",&n);
    leap(n);
}

void leap(int n)
{
    if (n%400==0)
    {
        printf("It Leap Year\n");
    }
    else if (n%100==0)
    {
        printf("It Leap Year\n");
    }
    else if (n%4==0)
    {
        printf("It Leap Year\n");
    }
    else
    {
        printf("It Not Leap Year\n");
    }
}
```
